Vol. 3, No. 6: 6/6 December 1974

1974 Index

Planning for Higher Education is concerned with the academic, financial and community aspects of planning, technical support systems, and the interrelationships between these elements. It is distributed every second month by the Society for College and University Planning to its membership and by Educational Facilities Laboratories to college and university planners, administrators, trustees, and others at national, state and regional levels who are concerned with planning.

The index to the 33 articles published in Volume 3 during 1974 is by title, subject, and author. The numbering system assigns each article its own number and also indicates the total number of articles in each issue. To illustrate, "Vol. 3, No. 6:5/6" translates as "Volume three, number six: fifth of six articles." Reprints are available from the Society for College and University Planning, 3 Washington Square Village, Suite 1-A, New York, N.Y. 10012 at the following rates: 2 page article, 25¢; 3 or 4 page article, 50¢; 5 or 6 page article, 75¢. Bulk rates are available upon request.
